Long in advance of posting these notes, I wrote of my concerns to Dr. Barry Anton (APA Board liaison to the PENS Task Force) and to APA Ethics Office Director Dr. Stephen Behnke (ostensible writer of the *APA PENS Report*), seeking resolution in regard to conflicts of interest and procedural flaws. Neither responded. My letters are archived in *The APA PENS Debate Collection*, Norlin Library, University of Colorado, Boulder, Colorado.

In making publicly available my records of the APA PENS Task Force I have consulted with professional ethicists, archivists, and attorneys. I will be glad to share the moral reasoning that underpins my decisions and to respond to all questions, if any of the Task Force members, acknowledged APA staff observers, or unacknowledged observers are amenable to public discourse on confidentiality and APA PENS process.
